THE FOREIGN NEWS had not come to hand when we went to press at a latish hour this morning. In good weather the steamer would now be past due at Halifax early yeaterday, but the ressur of storms has arrived, and we shall have long passages.

The great length of the Propeedings the Whig Ratification Meeting last night obliged us to put upon our First Page a variety of Inside Advertise ments, including Ward Notices, &c to which we cal

THE BODISCO STORY .- We learn by telegraph from Washington that Madame Bonisca yester day afternoon published a Card, which entirely contradicts the story that some penny-a-liner put upon the Courses & Enquirer, and through that paper upon the public, on Tuesday morning, to the arrival in Russia and sent off to Siberia as a pri soner. It seems that Madame B received letters from her husband by the steamer Europa, last week, informing her that he had left Russia or his return to this country. She expects that he will arrive by the first of January next.

received a telegraph despatch from Frankfort, Ky. to the effect that the long pending case between the proprietors of Morse's Telegraph Patent and Mr. O'Reilly has been decided in favor of the former so far as the so called Columbian instru junction forbidding the use of that instrument is confirmed. Mr. O'Reilly has taken an appeal from

## Freemen of New York!

With this sheet our voice will reach many of you for the last time prior to the Election. Bear with a word of exportation.

Why should not the National and State Admin istrations be sustained by your efforts and you votes? Are they intent on any wrong? Are they neglecting any duty? Is their policy impelled by malevolence or it! will toward any class or section ? By what considerations of public policy or personal daty are you required to oppose and denounce them?

Witton! can you disapprove the principle which those Administrations are proceed ing Whatever your bygone suspicions or votes, can you now doubt that Gen. Taylor is a stanch and true Whig, liberal in his feelings but firm in his principles, and anxiously laboring to move the country forward in the true path to prosperity and greatness? Is he not avowedly for Protection to Home Industry, Internal Improvements, and all the great measures for which we have so earnest ly struggled? If, then, you are governed by prin him by your suffrages?

Friends of FREE Soit !-- we speak not to thor who ride the principle as a hobby, but to these who cherish it as a duty-where will you stand ! With those who have always been unanimously for Free Territory ! or with those who saddled us given for the Wilmot Proviso? or with our adve saries whose two votes in the Senate brought in Slaveholding Texas, and whose remaining Senato has steadily opposed the Proviso ! Will you vote with those who laid the Provise on the table of their State Convention in 1847, or those who, find ing it there, took it up and unanimously passed it Judge the two parties who now await your verdict by their lifelong acts, and not by mere professions If you are men, and not children, you cannot b focied by the cry that Gen. Taylor and his Cabinet It is a lie-outright, unfounded, and a thousand times refuted. Neither the President not his Cab California, and there is no serious danger that it can ever be legalized there. But there is danger mminent, formidable danger-that Slavery w fronted by the Whig party alone. The prostrathe doom of New-Mexico. Its thousands of square miles sink into a County of Slavoholding Texas. How can you shut your eyes to this peril, and give your attention to a swindling dispute as to whether particular form of Constitution which California is most unlikely to adopt will or will not exclude Slavery from her borders !

Friends of PROTECTION TO HOME LABOR' W can have Specific duties and more beneficent Dis eriminations at the approaching Session of Congrees if Public Sentiment shall seem to demand them. Will you aid us to embody and enforce that sentiment ?

Friends of INTERNAL IMPROVEMENT! remen ber the River and Harbor Vetoes of Tyler an Polk! Remember the suicidal War on our Cana Policy of Flagg. Samuel Young, Wright, Hoffsian & Co. which has cost our State millions in wealth while it has diminished her Population and her ludustry. Remember their Stop and Tax Law, and the vast sums paid under it to Contractors for res cinding contracts which have since been renewed Remember the insane maliguity with which they have warred upon Improvement-their proscrip tion of Clinton-their clamor about Ruggles's Re port, which Time has so fully vindicated-and their more recent crusade against the Whig State Officers for pressing forward the Eric Canal En largement a little faster than the anti-Improvemont reading of the Conscitution will justify -And remember, friends! that good principles are often worsted by indolent or feeble championship and resolve that such shall not be the case wit yours. Rest not, weary not, from this momen till your Township or Ward is fully canvassed and organized; stop not on the day of Riection till its last Whig vote is polled! So shall you enable us to send you back returns which shall be music to your cars, and gladden every Whig heart in the Union with the tidings that New-York is still true to her principles, to the Nation's well-being and to
